

EXG-FOG FALLING OBJECT GUARD

* Attachments depicted may include optional upgrades or custom configurations.

This style of guarding is the most basic & economical operator & cab protection that will meet your regional & company safety committee requirements. Very easy to install as they bolt on with no welding upon installation. Comes with Front & Top assembly, bolts to OEM connection points with supplied hardware. Front has both horizontal & vertical protection bars (vertical protection bars are angled for maximum visibility). Both assemblies meet ISO, SAE & B.C. WorkSafe safety codes.

Optional configurations can also include:

- Removeable Screen or Lexan glass with or in place of grid style front window protection.
- Roof access hatch opening trip system.
- Rear window Safe T Punch (must be used when installing a top guard in order to meet B.C. WorkSafe guidelines for secondary escape).

Limited warranty based upon machine application. Contact Craig for details.

Craig F.O.G guards are designed to meet and/or exceed the following safety codes:

- ISO 10262:1998 (Level II) & 3449:2005
- SAE Code J231 & J1356
- BC Work-Safe Code G603 & G608

**Documentation is available for certified cab guarding upon request.*
