

EXB-VBRB
V BOTTOM ROCK BUCKET

The v-shape trench bucket is the perfect bucket for pipe laying in rocky/fractured ground conditions. The v-shape of the bucket also reduces the amount of bedding material that will be required in the trench thus reducing the cost to install pipe. All teeth engage the ground at the same time which leaves a smooth trench bottom.

- Available in Wedge Lock, Pin-on, S Series, or Manual Bar Lock lugging
- Complete with Adco style GET
