

MG-300

300 POSTLESS WING ASSEMBLY

The 300 Series Postless Wing Assembly has been designed for maximum operator visibility and safety. Using a parallel arm design, the front lift provides 40" of level benching height and is available in three pitch adjustment configurations. Non-adjustable, manually adjustable and hydraulic adjustable pitch control options available to fit your specifications and your budget.

- Available with a 12, 13 or 14 foot moldboard
- Hydraulic push pole adds up to 34" (standard) of increased reach
- Mechanical floating front slide allows constant road contact
- Excellent operator visibility
- Provides excellent flow from grader moldboard
- Fully hydraulic design (no cables)
