

# OUR MISSION

## CUSTOMERS

Craig is dedicated to providing the highest quality products and support to allow our customers to unlock the maximum potential productivity of their equipment.

## TEAM MEMBERS

We are committed to providing our Team Members with a stable, 5S and safe working environment that encourages personal and team development. Team creativity and innovation are the cornerstones on which our company has been built and only through these achievements will it succeed.

# LOADER QUARRY AND AGGREGATE ATTACHMENTS

If you're looking to get ahead in your quarry and aggregate operations, let the Craig line of products help you meet the intense demands of your project.

## WL-QKM QUIK KEY COUPLER

The Craig Quik Key coupler system allows for maximum work site and seasonal versatility. Change attachments in just seconds. Purchase our female blank to add to existing attachments or other heavy job site items that need to be moved frequently.

## WL-CVMC COMBO COUPLER

Offering superior visibility and minimal extension on the loader arms, the Craig Combo Coupler allows your machine to pick up existing OEM specific attachments.

## WL-RBVHD HEAVY DUTY ROCK BUCKET

Built to withstand harsh environments and severe service, Heavy Duty Rock Buckets are reinforced with extra thick plate and Brinell 400 wear protection on all wear surfaces. Straight, semi-spade and full spade edges available with your choice of teeth and segments. Features a plate style spill guard.

- Available with custom hard-facing for your specific application (pricing will vary)
- Can be configured with various arrow head cutting edges upon request
- Critical wear areas utilize Brinell 400 wear plate
- Drilled to accept dealer specified ground engaging tools

## WL-GP GENERAL PURPOSE BUCKET

The Craig General Purpose Bucket is the result of over 70 years of field tested, proven design and manufacturing capability.

## WL-GPP PERFORMANCE BUCKET

Use your machine to its full potential with the Craig Performance Bucket. Featuring curved side cutters, the Craig Performance Bucket allows for a greater heaped capacity over the traditional General Purpose bucket giving you an advantage when it comes to loading trucks.

## WL-SR SKELETON ROCK BUCKET

The Craig Skeleton Rock Bucket is designed for separating rocks and other large materials from loose soil.

## WL-SDB SIDE DUMP BUCKET

Ideal for tight spaces where conventional unloading is dangerous or not possible. The Craig Side Dump Bucket features a hydraulic cylinder and hinge point that allows the bucket to unload laterally while still allowing for conventional loading of the bucket. Left or right side dumping available.

## WL-CPF6070/CPF2050 PALLET FORKS

The CPF2050 is the standard hanging tine pallet fork designed for wheel loaders available from Craig. Features a low profile back frame that offers great visibility to the tines. The CPF6070 is the heavy duty variation, it features thicker end plates, larger tubing, and pins. Both prevent the tines from swinging out. Fork spacing is adjustable with dual hanger bars that feature tine locks to prevent tines from moving.

## WL-BFH HYDRAULIC REVERSIBLE BACKFILL BLADE

This dozer blade's wide cylinder stance provides maximum hold and strength while dozing. The cutting edge is gusseted between each mounting hole and a smooth boxed back frame keeps the moldboard light and strong.

## WL-CRF CRAIG ROCK FORKS

Craig Rock Forks are designed for moving large rocks in quarry applications. Built to withstand the severe duty of quarry applications, Craig Rock Forks feature hanging non-adjustable tines that are easy to replace.

## WL-CGS CRAIG GRAVEL SCOOP

Perfect for working in hard to reach areas, the Craig Gravel Scoop allows the operator to place loose material with precision – meaning less material lost.

A loader with a Heavy Duty Rock Bucket.

An excavator equipped with our Ripper Tooth, as well as our Direct Link Hydraulic Thumb.

# EXCAVATOR QUARRY AND AGGREGATE ATTACHMENTS

## EXB-XHD EXTRA HEAVY DUTY TRENCHING BUCKET

Extra Heavy Duty Buckets feature thicker G40 steel throughout their construction – including thicker Brinell 400 wear plate on the runners and side front plate.

## EXB-SS SEVERE SERVICE TRENCHING BUCKET

Craig Severe Service Buckets are specifically designed to meet your toughest applications. Superior Brinell 400 quenched and tempered steel is used in the main-sheet, end-plates, horizontal wear bars and base edge.

## EXB-DCSB SKELETON DITCHING BUCKET

Designed for separating rocks and other large materials from loose soil, the Craig Skeleton Ditching Bucket features a profile that is optimized for ditching/shaping applications.

## EXB-HDSB SKELETON TRENCHING BUCKET

The Craig Skeleton Trenching Bucket is designed for separating rocks and other large materials from loose soil.

## EXB-MASS MEGA ARMOUR SEVERE SERVICE TRENCHING BUCKET

The ultimate trenching bucket for excavators working in the most extreme applications. The Craig Mega Armour Severe Service Trenching Bucket features extensive plating and wear components in key areas to reduce wear in high abrasion, high impact job sites.

- Top and bottom sidebar protectors are interchangeable to improve wear life
- Designed to protect the edges of the three piece runners
- Protects key area where the base edge is welded to the side cutter
- Internal Weldox 100 beams reinforce the bridge section of the bucket
- Designed to protect from base edge scalloping
- Key wear areas made of Hardox 450 for increased life and durability
- Manufactured for a tight fit against the base edge ramp to ensure no loose bolts
- Tight fit against base edge keeps from interfering with tooth penetration
- Weld on half arrows between the teeth and adapters protect the base edge from scalloping

## EX-CHT HEAVY DUTY DIRECT LINK THUMB

Based on our signature Direct Link Thumb, the Heavy Duty Direct Link Thumb offers all the same great features as our standard thumb, including up to 120° of gripping rotation. Features a boxed construction and upgraded steel for added rigidity when working in tough applications.

## EX-RT RIPPER / FROST TOOTH

More than just a frost tooth, the Craig Ripper Tooth is designed for extra heavy duty applications where other rippers fail. Engineered for maximum penetration, the double reinforced shank joins a gusseted, boxed, lugging plate for unparalleled strength.

**EXF-HA**  
HAMMER ADAPTER

Available for all makes and models of hydraulic hammers and plate compactors.

**EXM-CQL2**  
CRAIG QUIK LOC GEN .2

Featuring an instant quick locking knuckle, the Craig Quik Loc Gen. 2 - powered by Cascade - is the ultimate in excavator pin grabber safety. A unique wedge style design allows the Craig Quik Loc Gen. 2 to be light weight and low profile - meaning more attachment capacity.

**EXM-CWL**  
CONVERTIBLE WEDGE LOCK COUPLER

The Craig Convertible Wedge Lock Coupler features a light weight, low profile design that maintains your machines OEM tip radius while offering a quick coupling system. Available as either a hydraulic or manual coupler, both configurations share the same chassis allowing them to be easily switched to either configuration at any time with a Craig supplied kit.

**EXM-ISH**  
CRAIG S-STYLE COUPLER

S1, S2, and S3 styles available to pin onto any excavator. The Craig S-Style Coupler features both audible and visual indicators to let the operator know when the coupler is engaged and disengaged. The low profile design allows for no tip radius extension allowing your machine to maintain maximum breakout force with the convenience of a quick coupling system.

A beautiful shot of a loader equipped with our **Heavy Duty Rock Bucket**. Working in a gravel pit near the Canadian Rockies, the **WL-RBVHD** makes sure the job gets done right.

**STAFFED WITH INDUSTRY PROFESSIONALS, THE CRAIG CUSTOMER SUPPORT CENTER IS READY TO HELP YOU WITH YOUR HEAVY EQUIPMENT ATTACHMENT NEEDS.**
